Background

School leadership has become a priority in School education sector internationally. Today School Leadership plays a key role in improving school outcomes by influencing the motivations and capacities of teachers, as well as the school climate and environment. Effective school leadership is essential to improve the efficiency and equity of schooling. As countries are seeking to adapt their education systems to the needs of contemporary society, expectations for schools and school leaders are changing. With the increasingly stakeholder's expectations the School Leadership is becoming a demanding set of roles which include financial and human resource management and leadership for learning.

With the present School Leadership is struggling with heavy workloads ; many are reaching retirement and it is getting harder to replace them. Potential candidates often hesitate to apply, because of overburdened roles, insufficient preparation and training, limited career prospects and inadequate support and rewards. With the need to need to enhance the quality of school leadership and make it sustainable **The Learners Confluence** has designed this five days' **Quality Vidyalaya Leadership Programme on 25 - 29 June 2018 at Bangalore**. The workshop for practicing School Leaders will help them to develop your existing skills to facilitate the leadership role. This workshop will enhance your professional knowledge and understanding - which will have a positive impact on your leadership behaviour and will benefit the school and leadership team.

Programme Objectives

- To analyse and understand the role of the School Leadership in School education
- To help Leaders understand the need for processes and map the key and support processes
- To develop strategies to lead and manage your team effectively with process approach with measurements
- To help participants recognize their leadership roles in creating a collaborative school environment with the support of their staff as a Team
- To expose participants to widely used Process Management Tools and Techniques which can be used to bring change scientifically & systematically.
- To adopt the TQM Approach for continuous improvement for satisfaction of all stakeholders
